GCSE Science in Action

Join us for the ultimate science enrichment day for KS4 in autumn 2018! Five interactive and highly engaging sessions will inspire and challenge your students. There will be demonstrations and audience participation, and students will discover the wonder of science in our specially designed programme, delivered by the leading lights in the field. A session on examination success will equip students with the tools to succeed, and each student will receive our incredibly useful revision guide to take home. This is Science in Action!

- The human guinea pig: Inside the NHS... and Tom!
- ZAP! The story of electricity
- "Periodic Success"- The luck, genius and accidents that have lead us to the greatest of scientific discoveries
- Galaxy zoo: From the lab to your living room
- Do you have what it takes to be an astronaut?

Emmanuel Centre, London
9 – 23 Marsham Street
London, SW1P 3DW

£19 + VAT*

GCSE Science
in ACTION

The human guinea pig: Inside the NHS... and Tom! / Tom Warrender

Meet Tom the human guinea pig who has visited dozens of health professionals to discover the amazing careers you can get into with 5 GCSEs at levels 9-4! Oh... and he'll perform some medical demos live on stage! Any volunteers....

Tom Warrender is famous for putting himself through real full blown medical procedures in hospitals & schools to inspire the next generation of health professionals.

Galaxy zoo: From the lab to your living room / Becky Smethurst

Join Becky as she journeys through some of the ground-breaking results that have come from Galaxy Zoo, showing just how powerful the crowd really can be.

Becky is an astrophysicist researching how supermassive black holes interact with galaxies to drive the evolution of the Universe.

ZAP! The story of electricity / Marty Jopson

From the Ancient Greeks, through Faraday's genius, Marty aims to put the awesome back into electricity. You may think we have electricity tamed, but are you sure? This session is chock full of huge sparks and a plucked chicken.

Marty has a PhD in plant biology, is a science TV presenter, live show performer, writer, strange prop builder and all round Science Bloke.

Do you have what it takes to be an astronaut? / Suzie Imber

Join Suzie to hear about what it takes to become a scientist and an astronaut, discuss the commercialisation of the space industry and the future of space travel.

Suzie Imber is an Associate Professor of planetary science, and the winner of the BBC series Astronauts: Do You Have what it Takes?

"Periodic Success" - The luck, genius and accidents that have led us to the greatest of scientific discoveries / Jamie Gallagher

Scientists have gone to the most extreme and crazy lengths to reach their 'eureka' moments. Jamie will take a look at some of the lucky discoveries of science and some of the lucky escapes.

Dr Jamie Gallagher is a scientist and science communicator. He was recognised as one of the UK's "100 Leading Practising Scientists" by the Science Council.
