

Year 10 Biology GCSE

We are following the AQA Biology syllabus

Topics

In Year 10, you will study the following topics:

	Biology
Autumn term	Topic 2 Organisation
Spring term	Topic 4 Bioenergetics
Summer term	Topic 7 Ecology

In each of these topics you will cover covering the scientific concepts and carry out practical work to develop your How Science Works skills.

Practical Science

We will be developing your ability to

- Identify variables and plan an experiment based on a hypothesis.
- Evaluating the quality of data and identifying sources of error in practical work
- Drawing and analysing graphs
- Identifying patterns in data

Assessment

At the end of each topic you will complete an end of topic assessment based on previous examination papers.

In the summer exam you will sit an exam which covers the year 9 and 10 topics studied In Biology.

Our expectations of you

- ✓ bring all equipment to all lessons
- ✓ complete homework on time and to the best of your ability
- ✓ take responsibility for revising scientific language and concepts on a regular basis
