

## **We are following the AQA A level Biology syllabus**

### **Topics**

In Year 12, you will study four topics taught by two teachers:

- 1 Biological molecules
- 2 Cells
- 3 Organisms exchange substances with their environment
- 4 Genetic information, variation and relationships between organisms

In each of these topics you will carry out required practical work to develop your How Science Works skills which also contributes towards a separate practical skill endorsement.

### **Assessment**

At the end of each topic you will complete an end of topic test, based on previous examination questions.

In the end of year 12 mock examinations you will sit two papers at AS standard. Each paper covers topics 1 – 4, including relevant practical skills. Each paper is 90 minutes long.

### **Our expectations of you**

- ✓ bring all equipment to all lessons
- ✓ complete homework on time and to the best of your ability
- ✓ take responsibility for revising scientific language and concepts on a regular basis
