

## History

### Core: Industrial Revolution 2

#### Evidence from autobiographies

#### 1. (a) Advantages of work in mines and factories :

- “ I never have to worry about being unemployed.”
- “ I bring home a good wage each week.”
- “ The work is indoors.”
- “ The wages are good and I’m never without work.”

#### (B) Disadvantages of working in the mines and factories:

- “ Mining is hard work.”
- “ Had to move to another town for work.”
- “ I don’t like the factory bell and all the strict rules.”

2. Before the industrial revolution skilled laborers had to train for seven years as an apprentice that the parents had to pay for after the Industrial Revolution and the need for skilled laborers it became much easier to learn a trade and an even more money.

#### 3. (A) benefits of work as a Navy compared to being a farm labourer:

- Wages were doubled
- Working in a gang
- Gave a lot more freedom
- Always plenty of work

#### (B) disadvantages of work as a Navy:

- The work is sometimes dangerous.
- The hours are long.
- You’re outside in all weathers.
