

Textiles project

By Emily Lock

Day 1: *finger knitting*

I found it quite hard at first but as I went on it got better. My one isn't that good but I will get better at it.

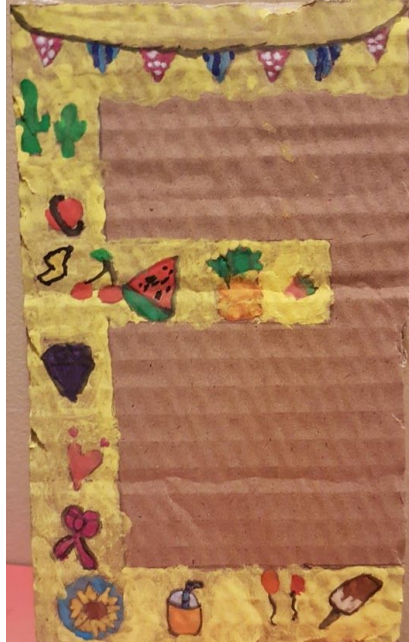

Day 2: *Designing a dress for met gala*

It was easy to think of ideas as they came to me when I was drawing it. It was also quite hard to imagine it and draw it but it came easier as I went on. It was very fun as well

Day 3: *Make and decorate a letter for your room*

It was really fun painting, but it was hard to do the detail and the drawings.

Day 4: *Upcycling a t-shirt*

It was really fun and the ideas came to me easily but the sewing was hard.

Before

After

Day 5: *Choose a dress from a Virtual museum.*

I chose a dress from Charles James Beyond Fashion. It is the gold wrapped dress. I chose it because it has a nice colour, it has a lot of detail to it and it is also really simple.
