

# Saint tropez

*By Jasmine Braddock*

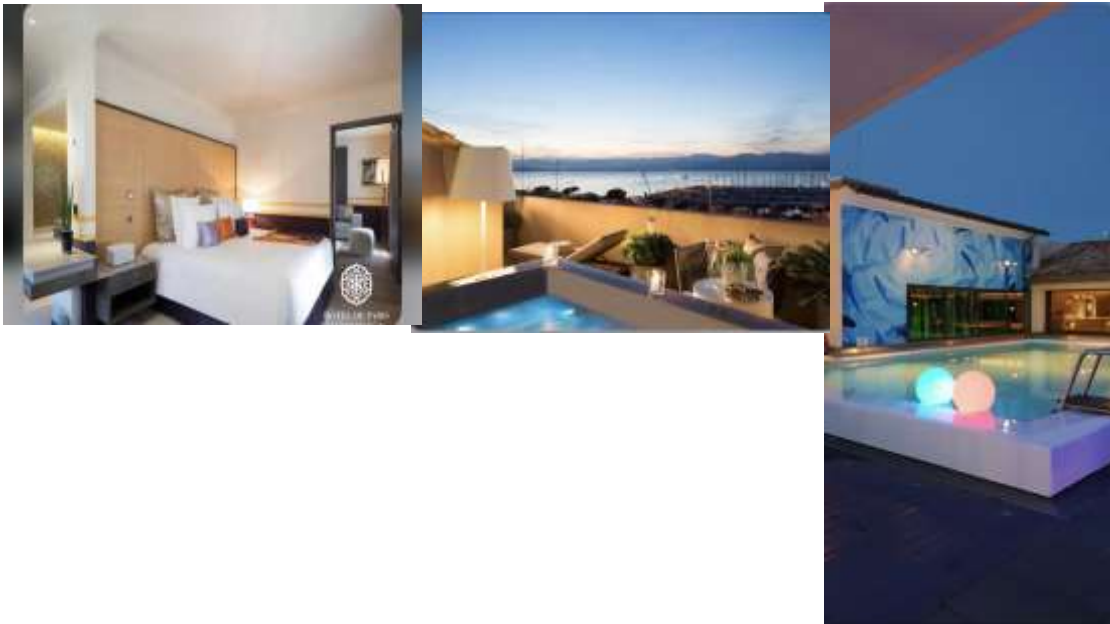

## Getting there

*The nearest airport to Saint tropez is Toulon Hyères which is 50 minutes away or the other possibility is Nice-Côte d'Azur airport about 90 minutes away, traffic permitting.*

## Where would you stay

*As Saint Tropez is a popular tourist destination they're many hotels and places to stay. The one I have chosen is Hôtel de paris (hotel, spa, restaurant and bar) it is rated a 4.6 out of 5 and has many great reviews. Here are some pictures*

## **Eating**

*I would probably walk down the promenade and around the town looking for restaurants. Some local foods I would try would be Soupe à l'oignon, Coq au vin, Cassoulet, Boeuf bourguignon, chocolate soufflé, flamiche, Confit de canard, Salade Niçoise, Ratatouille and tarte tatin.*

## **Activities**

*Some activities that I would do would include having a walk down the promenade of the old port, relax on the beach, take a boat tour or hire a boat, check out Musee de L'annonciade, go up the Citadel and take a walk at the Place Des Lices.*

## **Weather**

*The best time to visit St Tropez is during May, June and september when the weather is still warm around 26 degrees celsius. During these months you can avoid crowds, traffic jams, high prices and the heat of July and August where temperatures are 27 degrees celsius but can often soar to 35 degrees celsius.*
