CANNES - FRENCH RIVIERA

This is a great place to go just for a few days and for a family holiday. It also has lots of cool things to do when you get there.

Fly

From: London Stansted Airport (UK)

To: Nice Cote d'Azur Airport (France)

La Mairie (the Town Hall)

Louis Hourlier built the Town Hall, it took three years. Construction was completed in 1877. It is looking out at the Port. It is also where people come to register everything in local life.

The Laser Quest Cannes

Also known as the Laser Action Cannes, will offer you a radically (and virtually) different universe where you will need to adapt to the underwater environment.

The Cabanon

Beach Restaurant

This place has valet parking and also a children's menu. When you have kids this is one of the best places to go

La Croisette

This world-famous street, which runs along the shoreline of Cannes

Le Vieux Port

The Old Port of Cannes is an interesting mix of traditional charm and immense wealth. It's an Instagram favourite at sunrise or sunset when the magical colours of the portside buildings seem to come alive.

Festival de Cannes (film festival)

Red carpet event is a top tourist attraction. If you don't go in May you can still take photos
