

A scenic view of a wooden walkway leading to overwater bungalows in Bora Bora. The walkway is made of light-colored wood and curves along the edge of the turquoise water. On the right, several bungalows with thatched roofs are visible, built on stilts over the water. In the background, a dense line of palm trees is visible under a clear blue sky.

# My holiday to Bora Bora

French project

# How i will get to Bora bora

The only planes that fly directly to Bora Bora is the Air Tahiti planes. So we will get on one of those and go straight to bora bora without any stopps. It will be a long flight so we will have dinner on the plane .

# Bora Bora = Island in French Polynesia

Naomi Pearce

hello how are you=salut  
comment allez-vous

how much will that cost=  
Combien ça va coûter

we are ready to order=  
nous sommes prêts à  
commander

Thank you = merci

Hello = Bonjour

location=

Will be staying at the  
Pearl Seach and spa  
Resort.

# Where will i stay when we get there

I will stay in the Bora Bora Pearl Beach spa and Resort. You can choose to stay in the over water beach hut with is directly over the turquoise waters or you can stay in a house on land which has a garden and your own private pool. I think me and my family will stay in a beach hut over that clear waters. Below are some picture of the pearl beach and spa resort.i have chose to stay here because it looks like a really nice view over the sea and it looks like a nice relaxing place to spend your holiday.

# Where and what i will eat.

I will eat at the Pearl and Beach Resort because there many restaurant there like the [Miki Miki Restaurant](#) which sells salads and paninis by the poolside, [Taurarea Sushi Bar](#)

That sells sushi in a cosy restaurant and breakfast that is delivered to you on a canoe to your beach hut and finally a dinner served to you on the beach .

# What we would do?

We could get a taxi to go on the H2O Bora Bora snorkleing tour where you get a chance to see , manta rays ,colourful fish and coral. You can also go shark diveing where ypu get to see lemon sharks, black-tip sharks, dolphins, manta rays, leopard rays, sea turtles, various species of tropical fish and occasionally, a humpback whale. A good place to take younger kids is the turtle center where you see sea turtle feeding and a infomation speech about them. Finally the last thing we could do is jet skiing where you go on a jet ski over the clear waters .

# What would the weather be like at that time of the year

The month i would go and visit Bora Bora in would be in march because that is the hottest time of the month the highest it is is 30 degrees and the lowest is 25 degrees. The climate there is a tropical climate as it is near the equator. However i might actually want to go in august because that is when there is the least rain.
