

Dear Mr Attenborough,

I hope you are doing well. My name is Nepeli Tsamili, I am 14 years old and I attend Preslakes school. Recently, in Geography, we have been learning about our home planet, Earth. We have realised how much harm we are doing to the environment and how we can change that.

We have also been learning about global and local effects on our planet and how we can change our vision for the future if we all work together.

I am a big fan of your work and when I grow up I would love to travel the world just like yourself. I have watched all your documentaries, fascinated, and I have also read your book. You are so engaged to all the animals I really admire you. Thank you for your time. Have a merry Christmas and a Happy New Year.

Kind regards,

Nepeli ♡
