We are inviting budding poets, artists and photographers to submit their most engaging and creative work for publication in a new student-led

collaborative anthology to give a voice to eco-conscious youth. The anthology, 'Words and Pictures for Your World', will be based around five categories aligning with the [17 UN Sustainable Development Goals](#) (the 'SDGs'), and will be launched later this year to coincide with and celebrate [COP26](#) – the 26th United Nations Climate Change Conference taking place in Glasgow in November.

We are looking for words and pictures that we can link together in the anthology. The pictures can take the form of traditional art or own relevant photography to create an extraordinary collection of the written word and visual imagery by students, for the planet. Inspiration for entries can be found on our [Learn](#) and [Solutions](#) web pages, and download our handy poster from the resources below to spread the word!

Independent UKSSN panels will review all valid entries submitted by schools or students to create three shortlists per year group, one for poetry, one for traditional art (paintings, drawings, sketches etc.) and one for photography. The winning submissions for publication in the anthology will be decided by a voting poll on the Planetary website later in the year. The foreword of the anthology has been provided by the British author of the best-selling book, 'Wilding', and owner of the renowned Knepp Castle Estate, Isabella Tree.

The overall winner of each category as voted for by web poll will also be able to claim the grand prize of a two-day visit to two of West Sussex's premier attractions for themselves and a parent or guardian. First, accompanied by a representative of the Goodwood Education Trust, you will tour the world-renowned Goodwood Estate, to include their organic Home Farm, Goodwood Park, the Motor Circuit and the Aerodrome, followed by complimentary dinner and an overnight stay at the award-winning Goodwood Hotel. On day two, go wild on a guided safari at Isabella Tree's 3500-acre Knepp Wildland, with roaming herds of red and fallow deer, Exmoor ponies, Tamworth pigs, old English longhorn cattle, and white storks!
